DETAILED ACTION

This Office Action is in response to the Amendment filed on September 6, 2007.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 38, at the end of line 1, delete "the" and insert in its place -- a --.

This examiner's amendment was made to correct the antecedent basis for the limitation of the "p-i-n type" which would have been objected to for having a minor informality.

Allowable Subject Matter

Claims 38-44 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art references, alone or in combination, do not show a photovoltaic device comprising a plurality of photovoltaic cells of the p-i-n type placed on a substrate, wherein at least the p-type layer and the n-type layer are both located in the same layer on the first

substrate, parallel to one another and on top of the electrically conductive layer, wherein said p-type layer and said n-type layer are of equal thickness.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
